## Summary

---

Full Stack Developer with expertise in React, Node.js, and NestJS, backed by practical experience delivering real-world client projects. Skilled in developing scalable web, mobile and AI with hands-on exposure to QA and cloud deployment, machine learning, and microservices. Strong in problem-solving and effective collaboration across cross-functional teams.

## Education

---

**Itahari International College**, BSc Hons. Computing – Sunsari, Nepal 2023 – Present

- Degree: BSc Hons. Computing
- Present

## Technical Skills

---

- **Full-Stack Web Development:** React, Node.js, NestJS, Express.js, Supabase, RESTful APIs
- **Programming Languages:** JavaScript, TypeScript, Java, Python, .NET
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Mobile Development:** React Native, .NET, C# (foundation)
- **DevOps & Cloud Deployment:** VPS Deployment, AWS, Linux, Git, GitHub, CI/CD Pipeline
- QA

## Work Experience

---

**Clove IT – Intern** June 2025 – October 2025

- Contributed to 5+ national and international client projects in a full-stack development role.
- Participated in end-to-end development including backend logic, API integration, and responsive frontend implementation.
- Engaged in meetings with US-based clients to gather requirements and provide technical updates.
- Collaborated using Git workflows and version control best practices.

## Projects

---

**Nepalisharemarket.com / APP** [link](#) Completed

Developed **nepalisharemarket.com**, a web-based platform focused on Nepal's share market ecosystem. Built features to present market-related information in a structured and user-friendly way, using modern full-stack technologies to ensure scalability, performance, and smooth user experience.

**Website:** [nepalisharemarket.com](https://nepalisharemarket.com)

### **Manthhan – Intelligent Business Solutions Platform**

*Completed*

Built a comprehensive business automation platform enabling organizations to streamline operations and enhance communication. Features include **post uploads and messaging** across multiple channels such as **Meta platforms, Gmail, Discord, and more**, unified dashboards, process automation, and admin management to ensure operational efficiency and secure data handling.

Live URL: <https://manthhan.app> – selected in IFN – Business incubation Service

### **Npm-NepalGeoHelper**

*Completed*

Built **NepalGeoHelper**, an npm package designed to simplify working with Nepal's geographical and administrative data in applications. Developed it to help standardize and manage location-related information efficiently, making integration easier for developers.
